CIRCUITS MANUFACTURING
1989 ARTICLE INDEX
General Assembly

Automation

Automation: Full Steam Ahead, *Richard Masters and Richard Musa, IBM Corp., March, p. H22.*

A Good High-Mix Recipe, *Michael L. Martel, Associate Editor, April, p. 19.*

Panel Mounting Printed Circuits for Assembly, *Fred W. Kear, Siemens Transmissions Systems, January, p. 50.*

Yakkety-Yak: Machines Talk Back, *Guy David Yollin and Jeffrey O. Smith, Cybernetic Systems, January, p. 55.*

Cleaning

Cleaning Your Screens, *Stephen J. Dow, Austin American Technology, October, p. 108.*

Evaluating New, "Safe" Cleaners and Defluxers, *Abid Merchant and Mark C. Wolff, Du Pont, November, p. 46.*

Is there Life (or Cleanliness) After CFCs? *Michael L. Martel, Associate Editor, March, p. 21.*

A Kinetic Approach to SMD Aqueous Cleaning, *Karl E. Bahr and James J. Andrus, Hollis Automation, November, p. 52.*

No Fluxing, No Cleaning: Inert-Gas Wave Soldering, *Gert Schouten, Dover Soltec, September, p. 50.*

Recycling Boosts Aqueous Cleaners, *John F. Russo and Martin S. Fischer, Separation Technologists, July, p. 34.*

Searching for a Substitute, *Dr. J.K. Kirk Bonner, Allied Signal (Genesolv/Baron Blakeslee), July, p. 42.*

Solder Pastes Fight CFCs, *Jerry Murray, West Coast Editor, November, p. 40.*

To Clean or Not to Clean, *Leslie Guth, AT&T Bell Laboratories, February, p. 59.*

CIM

Forging a CIM Link, *Andrew J. Dudka, CalComp, October, p. 114.*

Dispensing

Using Programmable Liquid Dispensing Systems, *Thomas E. Blanchard, Automation Unlimited, August, p. 50.*

Drilling

All About Small Holes, *Jerry Murray, West Coast Editor, February, p. 65.*

Microdrilling in Scandinavia, *Kent Tornqvist, Ericsson Radio Systems, and Anders Ljungblad, Schneidler Elektronicfab, September, p. 60.*

Fabrication

All About Small Holes, *Jerry Murray, West Coast Editor, February, p. 65.*

Chemistry in Small-Hole Plating, *Jerry Murray, West Coast Editor, June, p. 58.*

Choosing the Ideal SMT Laminate, *Survey, July, p. 46.*

Considerations in Fine-Line Imaging, *Elmer Hayes and Jana Caraway, Dynachem, April, p. 57.*

Electrolytic Regeneration of Cupric Chloride Etchants, *Gareth Weed, Finishing Services Ltd., August, p. 47.*

Fine-Line Imaging, *Forum, Jerry Murray, West Coast Editor, April, p. 51.*

Fluoropolymer Composites, *Candace Simonetti and Steven C. Lockard, Rogers Corp., March, p. 42.*

Glasteel Squirts it Out, *Jerry Murray, West Coast Editor, March, p. 46.*

The Impact of SMT on Design and Fabrication, *John A. Biancini, Supernova Corp., November, p. 22.*

Laminate Lacunae, *Al Berlin, GKB Associates, March, p. 37.*

Mechanical Advantages in Small-Hole Plating, *Jerry Murray, West Coast Editor, June, p. 53.*

MLB Impossible, *Jerry Murray, West Coast Editor, January, p. 21.*

Microdrilling in Scandinavia, *Kent Tornqvist, Ericsson Radio Systems, and Anders Ljungblad, Schneidler Elektronicfab, September, p. 60.*

Repeatability, Accuracy and Resolution, *Mike Juha, Excellon Photonics, February, p. 74.*

Scanning PCB Artwork, *Terry Wellman, Optronics, September, p. 66.*

Solder Masking Equipment, *Jerry Murray, West Coast Editor, May, p. 56.*

Variables In Phototool Accuracy, *Wick L. McCaleb, Eastman Kodak Co., February, p. 80.*

Wet Processing, *Jerry Murray, West Coast Editor, January, p. 26.*

What, No Film? *Michael L. Martel, Associate Editor, September, p. 56.*

Hi-Rel

Automation: Full Steam Ahead, *Richard Masters and Richard Musa, IBM Corp., March, p. H22.*

Conformal Coatings Put to the Test, *Carole K. Ellenberger, Texas Instruments, June, p. H10.*

Environmental Stress Screening, *Andy Santoni, Contributing Editor, June, p. H17.*

ARTICLE INDEX

Environmental Testing, *Jerry Kirschenbaum, Trace Laboratories-West, March, p. H10.*

Evaluating Soldering Irons Via DOD-2000, *George L. Tritsch, Westinghouse Electric Corp., June, p. H2.*

The Hi-Rel Ceramic PCB, *Jerry Murray, West Coast Editor, September, p. 76.*

The Hybrids, *Jerry Murray, West Coast Editor, March, p. H3.*

Implementing WS6536E/SCN3, *James D. Sulciner and William Hubbard, GTE Government Systems Corp., September, p. 70.*

Microscopic View, *John Tuck, Publisher/Editor, March, p. H13.*

MIL-STD-2000: Its Effect on the PCB, *Forum, Jerry Murray, West Coast Editor, May, p. 79.*

Move Over DOD-2000: Here's MIL-STD-2000, *Robert Cormack, Naval Air Engineering Center, September, p. 80.*

X-Ray Precision in Board Manufacturing, *John p. Wiley and Robert C. Ludden, IBM Machines Corp., September, p. 90.*

Hybrids

The Hybrids, *Jerry Murray, West Coast Editor, March, p. H3.*

Polymers Make a Takeover Bid, *John Tuck, Publisher/Editor, January, p. 39.*

Imaging

Considerations in Fine-Line Imaging, *Elmer Hayes and Jana Caraway, Dynachem, April, p. 57.*

Fine-Line Imaging, *Forum, Jerry Murray, West Coast Editor, April, p. 51.*

Issues in Imaging, *Jerry Murray, West Coast Editor, November, p. 70.*

Repeatability, Accuracy and Resolution, *Mike Juha, Excellon Photonics, February, p. 74.*

Scanning PCB Artwork, *Terry Wellman, Optronics, September, p. 66.*

Variables In Phototool Accuracy, *Wick L. McCaleb, Eastman Kodak Co., February, p. 80.*

What, No Film? *Michael L. Martel, Associate Editor, September, p. 56.*

Inspection

AOI: Where It's At, *Jerry Murray, West Coast Editor, May, p. 64.*

Automated Inspection Roundup, *Michael L. Martel, Associate Editor, July, p. 24.*

Microscopic View, *John Tuck, Publisher/Editor, March, p. H13.*

Scanned-Beam Lithography, *Chris McBee, Four Pi Corporation, January, p. 67.*

A Step Beyond AOI, *Charles Seifert, View Engineering, May, p. 70.*

Surface Mount Package Inspection, *Russell Dudley, View Engineering, November, p. 58.*

Taking the Measure of a Solder Joint, *Paul D. Baker, Robotic Vision Systems Inc., July, p. 20.*

PCB Laminates and Materials

Fluoropolymer Composites, *Candace Simonetti and Steven C. Lockard, Rogers Corp., March, p. 42.*

Glasteel Squirts it Out, *Jerry Murray, West Coast Editor, March, p. 46.*

Lame-Duck FR-4, *Michael Martel, Associate Editor, January, p. 31.*

Laminate Lacunae, *Al Berlin, GKB Associates, March, p. 37.*

Polymers Make a Takeover Bid, *John Tuck, Publisher/Editor, January, p. 39.*

Plating and Etching

Chemistry in Small-Hole Plating, *Jerry Murray, West Coast Editor, June, p. 58.*

Electrolytic Regeneration of Cupric Chloride Etchants, *Gareth Weed, Finishing Services Ltd., August, p. 47.*

Mechanical Advantages in Small-Hole Plating, *Jerry Murray, West Coast Editor, June, p. 53.*

Safety

What You Can Learn From a High-Tech Fire, *George Dalich, Praegitzer Industries, Inc., January, p. 46.*

Solder Masks

The Impact of Solder-Mask Thickness, *Sam Shoemaker and Dr. James Briguglio, Dynachem Division of Morton Thiokol, August, p. 40.*

Liquids on the Loose, *John Tuck, Publisher/Editor, May, p. 48.*

Photoimageable Solder Mask for SMT, *Martin Barton, Rockwell International, and John Nguyen, Tektronix Inc., August, p. 36.*

Solder Masking Equipment, *Jerry Murray, West Coast Editor, May, p. 56.*

Soldering

Convection in the IR Furnace: It's Not Just for Panels, *Norman R. Cox, Research Inc., September, p. 24.*

The Evolution in Reflow Soldering Systems, *Sabi Avramescu, Electrovert, Ltd., November, p. 28.*

Forced Convection: The Dark Horse, *Michael L. Martel, Associate Editor, February, p. 27.*

Jumping on the IR Bandwagon, *Michael L. Martel, Associate Editor, February, p. 41.*

Keeping Machine Soldering Under Control, *Ralph Woodgate, Woodcorp, Inc., January, p. 42.*

Know Thy Thermocouple! *Trent Uehling and Michael Glynn, Energy Technology Systems Inc., September, p. 28.*

New Wrinkles in Reflow, *Michael L. Martel, Associate Editor, June, p. 33.*

ARTICLE INDEX

No Fluxing, No Cleaning: Inert-Gas Wave Soldering, *Gert Schouten, Dover Soltec, September, p. 50.*

Soldering Fine Pitch with a Quality Approach, *Louis J. Kosarek, STB Systems Inc., April, p. 46.*

To Clean or Not to Clean, *Leslie Guth, AT&T Bell Laboratories, February, p. 59.*

Update: Vapor Phase Comes of Age, *Raymond K. Merle, Corp. Industrial Products Div., March, p. 32.*

Vapor Phase: The Third Generation, *Dale Linman, Centech Corp., March, p. 26.*

Standards

Evaluating Soldering Irons Via DOD-2000, *George L. Tritsch, Westinghouse Electric Corp., June, p. H2.*

Implementing WS6536E/SCN3, *James D. Sulciner and William Hubbard, GTE Government Systems Corp., September, p. 70.*

MIL-STD-2000: Its Effect on the PCB, *Forum, Jerry Murray, West Coast Editor, May, p. 79.*

Move Over DOD-2000: Here's MIL-STD-2000, *Robert Cormack, Naval Air Engineering Center, September, p. 80.*

Test

Environmental Testing, *Jerry Kirschenbaum, Trace Laboratories-West, March, p. H10.*

Surface Mount

Automation

A Good High-Mix Recipe, *Michael L. Martel, Associate Editor, April, p. 19.*

Yakkety-Yak: Machines Talk Back, *Guy David Yollin and Jeffrey O. Smith, Cybernetic Systems, January, p. 55.*

Cleaning

Cleaning Your Screens, *Stephen J. Dow, Austin American Technology, October, p. 108.*

Is there Life (or Cleanliness) After CFCs? *Michael L. Martel, Associate Editor, March, p. 21.*

A Kinetic Approach to SMD Aqueous Cleaning, *Karl E. Bahr and James J. Andrus, Hollis Automation, November, p. 52.*

Solder Pastes Fight CFCs, *Jerry Murray, West Coast Editor, November, p. 40.*

Components

Chip Component Rework Made Simple, *Michael L. Martel, Associate Editor, April, p. 32.*

Going Off-Line: Component Changes Drive Assembly, *Michael L. Martel, Associate Editor, July, p. 30.*

Right on the Mark, *Gregory N. Dellisante, Raytheon Co., October, p. 111.*

Surface Mount Package Inspection, *Russell Dudley, View Engineering, November, p. 58.*

Design

Go Team, Go! *Vern Solberg, SCI Manufacturing, February, p. 53.*

The Impact of SMT on Design and Fabrication, *John A. Biancini, Supernova Corp., November, p. 22.*

A Neglected Process Tool, *Kenneth Jessen, Hewlett-Packard, May, p. 43.*

Fine-Pitch

Circuits Manufacturing's Forum on Fine Pitch and TAB, *Michael L. Martel, Associate Editor, June, p. 22.*

Fine-Pitch Requires Good Solder-Paste Performance, *Richard Short and Dr. Ning-Cheng Lee, Indium Corp., August, p. 22.*

Soldering Fine Pitch with a Quality Approach, *Louis J. Kosarek, STB Systems Inc., April, p. 46.*

Inspection

Automated Inspection Roundup, *Michael L. Martel, Associate Editor, July, p. 24.*

Scanned-Beam Lithography, *Chris McBee, Four Pi Corporation, January, p. 67.*

Surface Mount Package Inspection, *Russell Dudley, View Engineering, November, p. 58.*

Taking the Measure of a Solder Joint, *Paul D. Baker, Robotic Vision Systems Inc., July, p. 20.*

ARTICLE INDEX

JIT

A Good High-Mix Recipe, *Michael L. Martel, Associate Editor, April, p. 19.*

Manual Assembly

Manual Assembly, *Michael L. Martel, Associate Editor, May, p. 32.*

The Mechanical Advantage, *Michael L. Martel, Associate Editor, May, p. 26.*

Materials

Fine-Pitch Requires Good Solder-Paste Performance, *Richard Short and Dr. Ning-Cheng Lee, Indium Corp., August, p. 22.*

The Impact of Solder-Mask Thickness, *Sam Shoemaker and Dr. James Briguglio, Dynachem Div. of Morton Thiokol, August, p. 40.*

Is there Life (or Cleanliness) After CFCs? *Michael L. Martel, Associate Editor, March, p. 21.*

Photoimageable Solder Mask for SMT, *Martin Barton, Rockwell International, and John Nguyen, Tektronix Inc., August, p. 36.*

Right on the Mark, *Gregory N. Dellisante, Raytheon Co., October, p. 111.*

Solder Paste Sleuthing, *Chetna Sanghavi and Kantesh Doss, Austin American Technology, January, p. 58.*

Pick-and-Place

Favorite Feeder, *Donald Ford, Ford Associates, April, p. 41.*

How to Avoid the Ratings Trap, *Karl R. McEntire and John R. Howard, Iomega Corp., February, p. 49.*

Making the Right Choices in Equipment Selection, *Anthony Duck, E.I. Circuits Inc., February, p. 44.*

Selection Criteria for Pick and Place Vision Systems, *Fred Smith, Ismeca USA Inc., August, p. 32.*

Rework

The Bottom Line on Rework Stations, *Eric Siegel, Pace Inc., September, p. 37.*

Chip Component Rework Made Simple, *Michael L. Martel, Associate Editor, April, p. 32.*

A Strategic Approach to SMT Rework, *Theresa Hudson, Delco Electronics, November, p. 34.*

Thermal Separation Works When the Heat is On, *Donald J. Spigarelli, SRT, August, p. 26.*

Screen Printing

Fine-Pitch Requires Good Solder-Paste Performance, *Richard Short and Dr. Ning-Cheng Lee, Indium Corp., August, p. 22.*

High Mix Stencil Printer Design Considerations, *Mark Curtin, Transition Automation, May, p. 38.*

Screen Print Insurance, *Gary Freeman, MPM Corporation, April, p. 27.*

Solder Paste

Fine-Pitch Requires Good Solder-Paste Performance, *Richard Short and Dr. Ning-Cheng Lee, Indium Corp., August, p. 22.*

Is there Life (or Cleanliness) After CFCs? *Michael L. Martel, Associate Editor, March, p. 21.*

Solder Pastes Fight CFCs, *Jerry Murray, West Coast Editor, November, p. 40.*

Solder Paste Sleuthing, *Chetna Sanghavi and Kantesh Doss, Austin American Technology, January, p. 58.*

Soldering

Convection in the IR Furnace: It's Not Just for Panels, *Norman R. Cox, Research Inc., September, p. 24.*

The Evolution in Reflow Soldering Systems, *Sabi Avramescu, Electrovert, Ltd., November, p. 28.*

Forced Convection: The Dark Horse, *Michael L. Martel, Associate Editor, February, p. 27.*

Jumping on the IR Bandwagon, *Michael L. Martel, Associate Editor, February, p. 41.*

Know Thy Thermocouple! *Trent Uehling and Michael Glynn, Energy Technology Systems Inc., September, p. 28.*

New Wrinkles in Reflow, *Michael L. Martel, Associate Editor, June, p. 33.*

No Fluxing, No Cleaning: Inert-Gas Wave Soldering, *Gert Schouten, Dover Soltec, September, p. 50.*

Soldering Fine Pitch with a Quality Approach, *Louis J. Kosarek, STB Systems Inc., April, p. 46.*

Update: Vapor Phase Comes of Age, *Raymond K. Merle, Corp. Industrial Products Div., March, p. 32.*

Vapor Phase: The Third Generation, *Dale Linman, Centech Corp., March, p. 26.*

TAB and Advanced Packaging

Multichip Modules: Buzzwords or Bonanza, *John J.H. Reche, Polycon, June, p. 46.*

Practical Considerations for Tape Automated Bonding, *Bruce Inpyn, Pitney Bowes, June, p. 42.*

Test

Bare Facts of SMT Testing, *John Tuck, Publisher/Editor, June, p. 63.*

A Neglected Process Tool, *Kenneth Jessen, Hewlett-Packard, May, p. 43.*
